## It's All About the Gram

"We created Le Jolie Medi Spa as a one-stop-shop for people to come in for a full experience," co-owner Nourian dishes. He tells *Stylish*, "We didn't want people to come in and feel as though they were entering a medical environment but rather a loungey space where they have a calm and relaxed feel." He adds, "We wanted to make the space Instagrammable, too!" To make it stand out, Nourian says, "When you walk in, you can't really tell what's going on, but once you enter the backroom, that's where the magic happens," he explains.

## The Most Popular Service They Offer

Yolanda Hadid and Brandi Glanville have been flocking to the spa and one of their most popular service includes a FORMA non-surgical facelift (with one treatment for \$600.) "Everyone wants that sculpting, lift, higher cheekbones and their jawline to pop," Nourian explains. "With the FORMA, we can sculpt the face and create a contour and tightening affect to achieve that model look without surgery," he says. An added plus? The FORMA can provide anti-aging improvements, get rid of fine lines and wrinkles and make room for bright skin.

## The Celebrity Looks Their Clients Strive For

While most of their clients come in wanting the infamous "Le Jolie glow," Kylie Jenner's lips are also still a common request. "Five years ago when we started, people were asking for Kylie's lips and the trend hasn't died down," Rafaeloff reveals. "Sometimes we'll ask people if they want to show us a specific picture of lips, but at this point Dr. Rafaeloff has mastered the technique with her artistic and scientific background, so our clients can walk away with their own personalized look," Nourian adds.

"Right now people are loving the non-surgical nose job to get rid of bumps, get their nose smaller, tighter or lifted up a bit," Nourian says. "Under eye bag removal is also popular along with clients wanting bigger eyes or a tighter eye area," Rafaeloff tells *Stylish*. "People are concentrating more on their faces rather than bodies because they're aiming for smooth, tight skin and a glowy, dewy look," Nourian reveals.
